

Pulse: Smart data collection to improve NDIS disability care outcomes.

The screenshot shows the 'Evening Medication Report' form. It prompts the user to 'Select all the medicine administered to the client in the evening.' The form includes four radio button options: Bio-C Chewable, Oil (To be applied), Vitamin D (selected), and Supplements. Below these options is a text input field for 'Medicine not in the list? Add here. (Separate by comma)' and a 'SUBMIT REPORT' button.

Re-imagining how care data is used.

We have researched extensively with service providers, carers and participants to design a beautiful easy to use solution that add's value to the care organisation, carer's participants and thier families.

Pulse: Your smart data care assistant.

Pulse spots trends in your care routines, changes in your mood, diet or behaviour and alerts those that can assist you, data to help you and keep your NDIS provider compliant with documentation needs.
